Filippo Meluzzi, Student/Graduate student

I've graduated in Management and Marketing at the University of Bologna and I am currently attending the Master's Degree in Communication Design at ISIA Florence.

I've always been passionate about art and design, I am inclined to a simple but at the same time effective graphic design, aimed at highlighting the communicative aspect of the project I am working on; this always pushes me to look for the best combination of form and content.

Personal info

Nationality **Italian** Date of Birth **26/05/2000**

Work experience

Photographer/graphic designer as a freelance

I have done various graphic projects (logos, posters, cover art) at the request of local artists and collectives.

I have also several years of experience as a photographer, having worked for private parties and in clubs.
